

Support for East Sussex ethnically diverse Citizens during COVID-19

DRI is providing community outreach support for ethnically diverse citizens of East Sussex who have been affected by Covid-19.

The National Lottery Community Fund has awarded DRI with funds to support residents of East Sussex affected by the Covid-19 pandemic.

Our outreach workers and bilingual advocates will contact those in need, and provide over-the-phone or video support whilst signposting them to further organisations, if required.

If you know of anyone from an ethnic minority that might be struggling in isolation, feeling vulnerable or alone, please get in touch!

Please contact Alejandra Gonzalez on:
